

INTRODUCING BADGEPASS ONE!

The first of its kind, BadgePass ONE is changing the way customers produce ID badges. The intuitive, user-friendly, native app experience allows for versatility like you have never seen from an ID system before!

With BadgePass ONE, users can manage and issue badges from anywhere, including their phone or tablet. The software is easily downloadable from the App store, making it compatible with most mobile devices and eliminating costly and time-consuming software installation on your network.

MANAGE AND ISSUE BADGES FROM ANYWHERE

BadgePass ONE requires no software installation! The App is available for download from the Windows Store and Apple App Store, allowing for compatibility with most mobile devices.

Capture photos and print your badges from anywhere – a remote office location, a coffee shop, even your home! Your badges will be sent to a print queue allowing for easy card production at any card printer location.

ADVANCED PRINTER INTEGRATION

The BadgePass Connect printer was specifically designed for compatibility with BadgePass ONE software. All you need is an available IP address and a network connection to start printing badges! No printer driver is required; plus, our user-friendly portal allows you to easily monitor printer status, print test cards, check print counts and ribbon usage and more!

FLEXIBLE PRICING MODEL

With our flexible pricing model, no customer is too small to cost justify BadgePass ONE. Your package will include software, a card printer, ribbons and support – a true all in one system for badge production. Adjust your subscription package as your printing needs change, giving you additional supplies and prints when you need them and allowing you to reduce those costs as you do not.

SECURITY AND DATA STORAGE

With BadgePass ONE, cardholder data is saved securely in the cloud, so there is no risk of losing it if a computer crashes, gets hacked or is stolen. Even better, there is no need to maintain on-premises servers and computer workstations just for ID badge production.

The app continuously updates as new features become available, so your system is always up to date.
