

BADGEPASS ONE IN HOSPITALITY

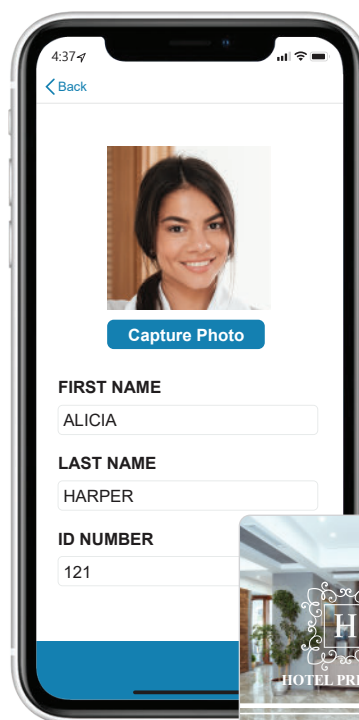

Whether you need to print membership VIP cards or produce quality employee badges, card production can seem like a daunting task. BadgePass ONE is here to change that!

BadgePass ONE is the first ID badging software of its kind, downloadable from the iOS or Windows App Store. It offers a native app experience for badge production directly from your phone, PC, or tablet! Since the application is hosted, your organization can eliminate costly on-site servers and computers, which dramatically reduces your IT needs and makes supporting your ID system effortless.

Best of all, our flexible pricing model is designed to make budgeting extremely easy! The system includes software, card printer(s), ribbons & support - all in one easy monthly or annual payment. Each subscription allows you to print up to the size of your cardholder database each year without worrying about ongoing supply costs; plus, you'll never have to worry about fees for additional support plans or maintenance again!

BENEFITS TO YOUR ORGANIZATION INCLUDE:

- Design easy to use apps for badge production for employees, patrons, members and more.
- Customized, secure card designs for all types of cardholders - even your VIP Guests!
- Speed up the badge production process by capturing photos on a tablet or phone.
- Enroll cardholder information from anywhere.
- Submit print jobs to a queue, allowing the cards to be printed and picked up as needed.
- Lower IT burden as no software is hosted on-site, no server is required, and no printer drivers are required for the badge printer.
- Easy to budget, the system subscription includes all software, hardware, supplies and service, eliminating any surprise expenses each year.
- Automated monthly or annual payment options.

Ideal for:

- Amusement parks
- Zoos & Aquariums
- Country Clubs
- Gun Ranges
- Hotels
- Museum
- Fitness Centers
- and more!

From BadgePass ONE to physical card in just a few simple steps.
